

WAUPACA CHRISTIAN ACADEMY WHY CHOOSE WCA?

EDUCATION FROM A CHRIST-CENTERED WORLDVIEW

In a culture that supports a secular worldview, it is vital that students have the opportunity to be influenced in a Christ-centered environment. A Christian worldview is one that presents material through the lens of Scripture. Using the Scripture as our guide, WCA teaches students to gauge everything under the discretion of the Holy Spirit.

CARING, QUALIFIED TEACHERS

Each teacher at WCA is a caring, qualified teacher that professes Christ as Savior. Having Christ as a personal guide, His wisdom is the strength that sustains each teacher. With a degree and required certification, teachers exhibit love and passion through their presence in the classroom on a daily basis.

CHRISTIAN LEADERSHIP

Leadership is a character-trait that WCA desires to instill in each graduate. Learning how to lead is first established as one learns to follow Christ. As Christ is being followed, students will then guide others toward the light of Christ (Matthew 5:16). Being a light in a dark world is the desired outcome for each student that attends WCA.

QUALITY ACADEMICS

Through developing and adopting a work ethic that stresses glorifying God in everything, students are challenged to give their best. While one student's best may be high grades, and one student's best may be mid-to-low grades, each student is encouraged to do their best. With parental support and teacher guidance, students will be equipped for collegiate entrance. Students participate in the required state testing.

PARTNERSHIP WITH PARENTS

At WCA, it is believed that education begins at home. Through consistent, Bible-based teaching, parents train their children in the way of the Lord (Proverbs 22:6). As an educational institution, WCA then supports the home through educating students and instilling a Christian worldview. Through partnerships with parents, WCA seeks to help train students in "the way they should go".
